Facilities Maintenance Update

Dear Loyola Parishioners & Visitors:

The last couple of months, we have been addressing persistent problems that, despite maintenance and repair, were not resolved. We are working now toward resolving these issues:

Academy Roofing was just on site for seven work days to repair the recurring roof leak in the northeast corner of the church interior (by the ushers' closet). The crew is confident it was able to resolve the issue. At that time, the roof was also inspected for any hail damage from the recent storm. They reported that everything looked good.

Logistics Plumbing has been on site multiple times to find the best solution to resolve the problem with the bathroom by the east doors. In addition to items being flushed down that shouldn't be, the bigger problem is the tree roots to the south of the church building. With the age of the building and grounds, the tree roots have grown into the pipes. In order to not destroy the roots and, therefore, preserve the trees, "the plumber" dug the area by hand, installed outtake and intake attachments at the site, and accessed the pipes from there to try to clear it out as far as possible with a jet blaster. This has been a step-by-step process, and we hope to have that restroom back in working order soon. The plumber also replaced the piping and valves under the Brady Hall kitchen sink. They had not been properly installed.

LVW Electronics was out in May to tweak some pieces of equipment to maintain our sound system. On Friday, they came out again to run a diagnostic evaluation on all of the speakers and system to determine what new equipment or repairs are needed to eliminate the distortions often heard from the pews. This crew, which knows our system very well, frequently works out of state, so we often have to wait to schedule them once they return to town. They have assured us they will have a proposal to us next week which addresses many of the issues you have reported.

An unexpected repair recently took place at the school. We learned that a sewer pipe collapsed several feet under the playground. This was causing back-ups in many of the school restrooms. The vendor was able to respond quickly and took just two days to make the repair, get the school's plumbing back in working order, and restore the playground.

In addition to these items, the church elevator issue of getting stuck between floors has been resolved. Since these improvements and repairs can't be seen, or are not very noticeable, we thought it was important to share this update with the community. It is also thanks to your ongoing commitment to the parish and financial support that we are able to address these issues.

SOCIAL JUSTICE MINISTRY

Visit With Us During Sunday Fellowship in June

The Loyola Social Justice Ministry invites you to participate in 'intentional fellowship.' During our regular fellowship today after the 7:30 Mass and next Sunday, June 25 after the 10 am Mass, we hope to further build relationship and listen to one another to identify what social justice issues are most impacting our parish community. Announcements at the end of Mass will provide details on how to participate if you would like. Or simply look for our ministry members wearing 'Together Colorado' stickers. For more information, please contact Celesté Martinez at celeste@togethercolorado.org or 303-968-6580.

CARE FOR OUR COMMON HOME

Potluck and Movie Night, Saturday, June 24

Please join us at 6:15 pm in Brady Hall for a potluck dinner/social time and showing of *Before the Flood*. ***If you don't have time to prepare a potluck item, come anyway – we always have plenty of food. All are welcome!*** This 2016 documentary film about climate change was directed by Fisher Stevens. The film is the product of a three-year journey that took place with Stevens and co-creator Leonardo DiCaprio. They visited every corner of the globe to document the devastating impacts of climate change and questioned humanity's ability to reverse what may be the most catastrophic problem humankind has ever faced. Martin Scorsese is an executive producer.

CARE FOR OUR COMMON HOME Our Community Garden Needs a Name

CCH would like the children of our parish to choose a patron saint to watch over the fruits of our labor. Ballots with the name of several saints (or choose your own) can be found at the entrances of the church from June 17 through July 2. Color the picture (if you like) and vote for a saint. Place your choice in a ballot box by Sunday, July 2. The votes will be tallied, and the saint with the most votes wins. The winning name will be announced the weekend of July 8, and a plaque with our patron saint's name will be placed in the garden this summer.

SUMMER POTLUCKS!

Would you like to spend more social time getting to know other members of the Loyola community? Sign up to attend a summer potluck! Sign-up sheets are located on the bulletin board by the North entrance. If you are interested in hosting a potluck at your home or at one of the community parks, please e-mail clegray@alumni.nd.edu to discuss details. You can pick the date, location, and size of the potluck.

SPECIAL THANKS

Many thanks to Fr. Dirk and parishioners Fred Daniels and Tom Willits for getting our buildings ready for summer. Special thanks also to Maria Rose for helping with removing and rolling up the Easter banners.
